Anas GARA

DevOps Engineer | AWS Certified Solutions Architect

anasgara7@gmail.com | Tunis, Tunisia
linkedin.com/in/anasgara | github.com/AnasGara

Profile

DevOps Engineer with 5 years of experience (including 3 years in a work-study programme) designing **CI/CD pipelines**, automating **cloud infrastructure (AWS)**, and deploying applications. Advanced skills in **Docker**, **Kubernetes**, **Linux administration**, and **Infrastructure as Code (Terraform, Ansible)**. Product-focused, with an understanding of **FinOps** and cloud cost optimisation. Experienced in working with international stakeholders in **Agile/Scrum** teams. Fluent professional English (**TOEIC 940/990**).

Professional Experience

DevOps Engineer
G-Digital Partner
Tunis, Tunisia
Sep 2024 - Present

- Designed **CI/CD pipelines** with **GitHub Actions** and **GitLab CI** for automated builds, tests, and conditional deployments; reduced deployment time from 1 hour to 5 minutes (**-92%**).
- Automated multi-environment cloud infrastructure with **Terraform (IaC)**, managing **AWS EC2, S3, RDS, Lambda, Route 53, and WAF**.
- Containerised applications with **Docker** and orchestrated them on **Kubernetes**, configuring **load balancing, Ingress, Nginx, DNS**, and **TLS certificates**.
- Implemented **Prometheus** and **Grafana** monitoring to maintain 99% uptime; integrated **SonarQube**, increasing code coverage to 80%.
- Wrote **Python** and **Bash / Shell** scripts to automate recurring **Linux administration** tasks.
- Worked directly with clients to translate technical requirements into deliverables and write **technical documentation**.

DevOps Engineer
Tanit De Carthage
Tunis, Tunisia
Sep 2021 - Jun 2024

- Developed a **Java/Spring Boot + Angular** business application handling **50k+ monthly operations per client** with response times below 200 ms.
- Implemented a **Jenkins CI/CD pipeline**, integrating **Git** and **Ansible** to standardise deployments.
- Administered on-premises and virtual infrastructure based on **VMware**.
- Automated backups with **Bash** scripts, reducing data-loss risk by **40%** and achieving an RPO below 1 hour.
- Automated testing to reach **85% coverage**, substantially reducing post-QA regressions.

Anas GARA

Technical Projects

Managed DBaaS Platform on a Sovereign Cloud *G-Digital Partner*

- Designed a DBaaS platform to provision database instances and clusters, with CPU/RAM allocation subject to administrator approval.
- Implemented backup strategies and **cross-datacentre replication** for high availability.
- Integrated secure **MFA authentication** and flexible **Pay-as-you-Go billing**.

Scalable AWS Infrastructure as Code (IaC) *Tanit De Carthage*

- Provisioned a multi-tier **AWS** architecture with **Terraform**, including an **Application Load Balancer (ALB)** and **Auto Scaling Groups**.
- Established a **GitOps workflow** to automatically plan and apply infrastructure changes.

Observability and Distributed Tracing Stack *Tanit De Carthage*

- Deployed **Prometheus, Grafana, and ELK/OpenSearch** to monitor performance, including I/O and database queries.
- Integrated **Zipkin** for distributed tracing across application microservices.
- Configured automated alerts to detect security issues and spikes in errors.

Technical Skills

- **CI/CD:** GitLab CI, Jenkins, GitHub Actions (pipelines, automated builds, tests, and deployments).
- **Infrastructure as Code & Configuration:** Terraform, Ansible.
- **Containers & Orchestration:** Docker, Kubernetes (production deployment and auto-scaling).
- **Cloud & Virtualisation:** VMware, AWS (EC2, S3, RDS, Lambda, Route 53, ALB, Auto Scaling, WAF).
- **Scripting & Languages:** Python, Bash / Shell, Java.
- **Linux & Networking:** Linux administration, load balancing, Ingress, Nginx, DNS, TLS certificates.
- **Monitoring & Quality:** Prometheus, Grafana, ELK/OpenSearch, SonarQube, Zipkin.
- **Tools & Methods:** Git, Agile/Scrum, technical documentation.

Education

SESAME University - *Engineering Degree in Software Engineering / DevOps Specialisation* *Sep 2021 - Jul 2024*

Higher Institute of Computer Science and Mathematics - *BSc in Computer Science* *Sep 2018 - Jun 2021*

Certifications & Languages

- **Certifications:** AWS Certified Solutions Architect - Associate (SAA-C03) | AWS Certified Cloud Practitioner (CLF-C02) | Microsoft Azure Fundamentals (AZ-900) | Google Cloud Fundamentals | ITS Java | ITS Database.
- **Languages:** English: Fluent (**TOEIC 940/990**) - French: Fluent - Arabic: Native - German: A1.2.
