Anas Gara

DevOps Engineer | Cloud, CI/CD & Infrastructure as Code

anasgara7@gmail.com · Ariana, Tunis
github.com/AnasGara · linkedin.com/in/anasgara

SUMMARY

DevOps Engineer with 5 years of experience building and maintaining **CI/CD pipelines**, automating **cloud infrastructure** (**AWS**), and deploying applications across dev, staging, and production environments. Hands-on with **Docker** and **Kubernetes**, **Infrastructure as Code** (**Terraform**, **Ansible**), strong **Linux and networking** fundamentals, and **monitoring** of system performance, availability, and security (Prometheus, Grafana). Experienced in remote-friendly Agile/Scrum teams; fluent in **English** (**TOEIC 940/990**) and French, comfortable communicating directly with international clients.

PROFESSIONAL EXPERIENCE

DevOps Engineer

Ariana, Tunis Sep 2024 - Present G-Digital Partner

- Built and maintained **CI/CD pipelines** (**GitHub Actions**, **Jenkins**) automating build, test, and deployment on **AWS EC2**; cut deployment time from 1 hour (manual) to 5 minutes - a **92%** reduction.
- Built parallelized test/deploy jobs with branch-based conditional deployment, cutting pipeline run time by 60%.
- Managed and automated cloud infrastructure with **Terraform** (**Infrastructure as Code**) across 3 environments (dev, staging, production), reducing provisioning time by 15%.
- Containerized the full application stack with **Docker** and deployed on **Kubernetes**, scaling 7 microservices to handle 20% more traffic.
- Deployed and maintained applications across dev, staging, and production, delivering 4 releases with zero rollback incidents.
- Monitored system performance and availability with **Prometheus** and **Grafana** across all 8 services (99% uptime); integrated **SonarQube** into CI/CD, improving code coverage to 80%.
- Diagnosed and resolved production incidents through root-cause analysis and preventive fixes, reducing mean time to resolution (MTTR) by 90%.
- Worked in a 7-person Agile/Scrum team across 6 sprints.

DevOps Engineer

Ariana, Tunis Sept 2021 - Jun 2024 Tanit De Carthage

- Implemented a **CI/CD pipeline** with **Jenkins** to automate build, testing, and artifact management, integrating **Git** and **Ansible** for reliable, automated deployments.
- Deployed **Prometheus & Grafana** dashboards for **real-time production monitoring**, enabling proactive detection of application health issues and incidents.
- Automated unit and integration testing using **JUnit** and **Mockito**, achieving **85%+ test coverage** and reducing regressions identified during QA.
- Optimized processing workflows through automation and pipeline optimization, yielding a **30% performance improvement**.
- Designed and developed an internal tool (**Spring Boot** backend, **Angular** frontend) within an Agile/Scrum team.

Anas Gara

Technical background & qualifications

TECHNICAL SKILLS

- **CI/CD: Jenkins**, **GitLab CI/CD**, **GitHub Actions** (pipeline design, automated build/test/deploy, branch-based deployments)
- **Linux & Networking:** Linux administration, Bash scripting, load balancing, DNS, TLS/certificates, ingress/reverse proxy, firewall & security-group configuration (Nginx, AWS ALB, Route 53)
- **Containers & Orchestration: Docker**, **Kubernetes** (production deployment & scaling)
- **Cloud: AWS** (EC2, S3, RDS, Lambda, Route 53, CloudFront, ALB/Auto Scaling, WAF); working knowledge of Azure and GCP (certified at fundamentals level)
- **Infrastructure as Code & Automation:** Terraform, Ansible, Python, Bash
- **Monitoring & Security:** Prometheus, Grafana, Zipkin, ELK/OpenSearch (familiar), SonarQube, WAF, security groups
- **Development & Methodology:** Python, Java, Spring Boot, JavaScript/TypeScript, SQL, Git, TDD, Agile/Scrum, technical documentation

EDUCATION

SESAME University

Sept 2021 - Jul 2024 - Software Engineering Degree: Software Engineering / DevOps

Higher Institute of Computer Science and Math.

Sept 2018 - Jun 2021 - BSc in Computer Science

CERTIFICATIONS & LANGUAGES

- **Certifications:** AWS Certified Solutions Architect - Associate (SAA-C03), AWS Certified Cloud Practitioner (CLF-C02) | Microsoft Azure Fundamentals (AZ-900) | Google Cloud Fundamentals | ITS Java | ITS Database
- **Languages:** English: Fluent (**TOEIC 940/990**) - French: Fluent - Arabic: Native - German: A1.2
